- Time Management
- Team Work

HOBBIES

- Coding
- Cricket
- Chess
- Reading
- Music

LANGUAGES

- English
- Malayalam
- Hindi

PROFILE

I'm a BCA graduate and software developer with front-end expertise utilizing HTML5, CSS3, and JavaScript. I'm experienced in PHP and MySQL and enjoy developing web applications. My programming language experience includes C, C++, Java, Python, and many more, and I'm currently learning React JS. In addition to my technological talents, I'm pursuing Google Data Foundations course to learn more about data analytics. I'm excited to lend my abilities to cutting-edge projects, and I'm passionate about developing seamless digital experiences.

EXPERIENCE

2024 JAN 1 - PRESENT

INTERN (Python - Django)

Singularis Software Technologies, Palarivattom, Kochi

PROJECTS

Main Project
SOCIAL MEDIA PLATFORM

Successfully completed my college main project in Python Django, titled 'Social Media Platform.' The platform primarily focuses on enabling students to share their notes, posts, and messages, while also facilitating collaboration among students.

Mini Project
ANNUAL MAINTENANCE CONTRACT

During my fifth semester, I successfully completed a college-level mini-project in PHP titled "Annual Maintenance Contract." This project implemented features for detailed contract viewing, allowing users to easily access and analyze specific contract information.

CERTIFICATIONS

- UI Design
- Data Analytics With Python
- Front End Development
- Java Programming
- Advanced Python
- Responsive Web Design

CLUBS & ACTIVITIES

- National Service Scheme (2021 - 2023)
- Red Cross Society (2016 - 2019)
